

REPUBLIC OF KENYA

COUNTY ASSEMBLY OF KILIFI

SECOND ASSEMBLY –THIRD SESSION

THE HANSARD

Tuesday, 2nd July 2019

*The House met at the County Assembly Chamber,
Malindi Town, at 2:30 p.m.*

[The Deputy Speaker (Hon. Kenga) in the Chair]

PRAYERS

COMMUNICATION FROM THE CHAIR

VISITING STUDENTS FROM BARANI SECONDARY SCHOOL

The Deputy Speaker (Hon. Kenga): Hon. Members, there is one communication I would like to make. I would like to acknowledge the presence in the Public Gallery this afternoon of students from Barani Secondary School. The students are here for a study visit to appreciate the legislative procedures, practices, traditions and parliamentary proceedings. I request that each student stands when called upon so that they may be acknowledged in the parliamentary tradition and practice. The names of these students are:-

1. Kiboni Karisa Grace
2. Kinge Abigael
3. Jentrix Akinyi
4. Neema Katana Bawa
5. Ngumbao Juliana Tatu
6. Alamin Sultan Mbarak
7. Kesi Prisciller katana
8. Simiyu Esther Nafula

9. Pauline Karemba
10. Kisiwa Sarah Dama
11. Mary Mahenzo Kahindi
12. Shida Mercyline Pendo
13. Sidi Ngombo Kithi
14. Abaroa Rebecca Dhiramo
15. Sharon Pendo
16. Mumba Alice Kadzo
17. Kitsao Selina Sidi
18. Riziki Juma
19. Ombeva Juliet Kabibi
20. Gitau Naimi Naule
21. Chitsaka Jecinta Chando
22. Omondi Rose Akinyi
23. Chuye Modesta K.
24. Nyiro Patricia Pendo
25. Betty Mvera H.
26. Emily Mbeyu Tinga
27. Mtawali Elina Nyadzua
28. Kenga Patience Mulwa
29. Ramadhan Amina
30. Mwamuye Putity Maku
31. Kazungu Pricila Umazi
32. Dorris Akoth
33. Elizabeth Dzame Leonard
34. Madaras Hiribae Madaras
35. Awini Noor Madonga
36. Kambu Constance
37. Sylvia Santa Charo
38. Ponda Neema Karisa
39. Ann Dama Katana
40. Pendo Chengo
41. Sakina Maimuna Boda
42. Tumbo Lucy Mwoka
43. Shida Purity Riziki
44. Catherine Awino Lumumba
45. Mary Pendo
46. Fardosa Adan
47. Ngala Kenga Kazungu
48. Moses Baraka Said
49. Abubakar Hassan
50. Mwangi Peter Kamau
51. Abdilkadir Hamza
52. Mwabgudza Kai Emmanuel
53. Bakari Ismail Bocha

79. Moses Kahindi
80. Mohammed Zein
81. Hosea Muhia Kamau
82. George Yeri
83. Victor R. Safari

The teachers accompanying them include;

1. Evans Wamalwa
2. Harold Odhiambo
3. Pauline Obiero

On behalf of the County Assembly of Kilifi and on my own behalf, I welcome them to the Assembly and wish them well. May I call upon the Member for Jilore Ward who comes from Malindi Sub-County where the school is located to give his welcoming remarks.

Hon. Chiriba: Thank you Mr. Speaker for giving me this opportunity to acknowledge and welcome these brilliant students from Barani Secondary School accompanied by their able teachers. I am hon. Daniel Chai Chiriba, a Member representing Jilore Ward, Malindi Sub-County where also Barani Secondary School is situated.

Mr. Speaker, even as I applaud the school and the students choosing to visit this Assembly knowing that they are privileged to have such an Assembly in their locality because as we stand here, Barani Secondary School is just a few metres if not a kilometre. Let me take this

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor.*

opportunity to say that this Assembly is one of the fruits of devolution. Today, we have similar Assemblies across the Nation; that is 47 counties. Initially we used to have the National Assembly and most of us could not get that privilege of going to Nairobi to visit such a premise. These students are blessed to see this kind of Assembly which is more or less like the National Assembly because whatever you see here is a replica to what is happening there.

I want also to bring to the attention of this House as we welcome Barani Secondary School; I know we are welcoming all members of the public because they come from different wards. We have students some from Jilore, Kakuyuni and the rest of the county.

Again, I want to appreciate that Barani Secondary School is one of the schools that are doing very well and that is why you will agree with me that most of the parents would want to secure an opportunity to have their children in that school. It is my prayer that these students will appreciate the idea of expressing good discipline which is very important towards their success. Also, as they have got this opportunity to visit this Assembly, I believe this same move can motivate some of them because you will agree with me that there are some hon. Members who are aging and would like some of these children who we are seeing to come and take over. We have our Bishop here who I believe in a few years time he would wish to have more time at home...

(Laughter)

So, I am seeing some of them admiring this opportunity of succeeding Members. I do not want to talk much but I am honoured that even in the absence of the hon. Member representing Malindi Ward who is outside the country, you have chosen me as a neighbour to welcome these good competitive students and so I say you are most welcome. Thank you very much.

The Deputy Speaker (Hon. Kenga): Thank you. Hon. (Ms.) Scholastica.

Hon. (Ms.) Scholastica: Thank you Mr. Speaker for giving me this opportunity. I am so humbled to be called to welcome Barani Secondary students and their teachers. I am Scholastica Audit Oduol, Specially Elected Kilifi County Member. Mine will be very brief and also I want to thank and recognize one of my friends who is your teacher Pauline; who is a sister to Elizabeth Ongoro, a politician, and I believe once there, she is going to teach you so many skills especially the ladies to come and join us. We know most of the ladies do not like politics. Some of us are afraid and what I would advise the ladies, please try and do politics so that we can be able to mingle with these men, quarrel, fight and at the end of the day we come with a conclusion and be together. When they are pushing for something we also push ours. At the National Assembly, we are trying to push the women agenda and all the time it is dropping down because we do not have numbers. So we are really praying that you work hard so that you can come join us and change especially Kilifi County.

Secondly, I want to talk to you my young sons and daughters. Please take care of yourselves. Christians and Muslims always say our bodies are a Temple of God. Make that body Holy, please, I beg you. We are lacking most ladies in leadership because most of you girls are getting pregnant and dropping out of school. Once you drop out of school, who is going to take us to the next level? If we were able to sustain until now we are mothers, please my daughter, be a good example. For my sons here, just wait for your time to come. This life is so sweet after school that you cannot imagine but for now, please, keep it to yourself. Thank you so much, you are highly welcome.

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor.*

The Deputy Speaker (Hon. Kenga): Thank you very much. That is an advice from an hon. Member and a mother. Thank you.

PAPER

THE KILIFI COUNTY PUBLIC SERVICE BOARD EXIT REPORT FOR THE PERIOD JULY 2013 TO JUNE 2019

Hon. Pascal: Thank you Mr. Speaker. I wish to lay on the Table of this House the Board Exit Report for Kilifi County Public Service Board for the period July 2013 to June 2019. Thank you, Mr. Speaker.

(Hon. Pascal laid the document on the Table)

The Deputy Speaker (Hon. Kenga): Thank you very much hon. Member. I now commit the same Report to the Committee on Labour, Devolution and Disaster Management. I want to believe that the Committee is well represented in the House. I can see the Vice-Chairperson is present. Therefore, they should be able to go through the Report and Table before this Assembly a Report for consideration by the House.

STATEMENT

PERENNIAL WATER SHORTAGE IN RABAI SUB-COUNTY

The Deputy Speaker (Hon. Kenga): Yes hon. Dickson.

Hon. Shaban: I am standing on behalf of the Chairperson Water, Environment, Natural Resources, Forestry and Solid Waste Management, who is unwell. I wish to respond to a Statement that was sought by hon. (Ms.) Carol, MCA Mwawesa Ward, aka iron lady.

Mr. Speaker, I want to read the Statement before the response. The Statement was directed to the CEC in charge of Water, Environment, Natural Resources, Forestry and Solid Waste Management through the Chairperson. The subject was; ‘Perennial water shortage in Rabai Sub-County’:-

‘Whether the CEC in charge of Water, Environment, Natural Resources, Forestry and Solid Waste Management is aware that Article 43 (1) (d) provides that every person has the right to clean water and safe water in adequate quantities.

Whether the County Executive Committee Member (CECM) is aware that there has been perennial water shortage in Rabai Sub-County for the past seven years and residents are forced to travel for long distance looking for the commodity.

Whether the CECM is aware that Rabai Sub-County is not directly connected to Mzima water pipeline, neither is it connected to Mariakani- Kibaokiche water pipeline nor Baricho-Kambe-Ribe water pipeline and/or Kamukunji dam as alternative water sources.’

Mr. Speaker, allow me to respond as follows; the CEC is aware that perennial water shortage is all over the Coast region and more so in the Coast Counties where they receive their water from either Baricho treatment works or Mzima springs water supply.

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor.*

Kilifi being one of the counties receives its water from the sources. Rabai Sub-County also receives its water from these sources but of recent past years, water is not sufficient for the rapid growing population not only in Rabai Sub-County but also in the other Sub-Counties including the neighbouring Sub-County of Kaloleni.

The Department therefore recommends upgrade of the eight inch pipeline from Mazeras to Mkapuni in order to take care of the increased population. Rabai Sub-County is connected to Mzima water pipeline at Mazeras where we have the eight inch pipeline from Mazeras to Mkapuni to upper Ribe water storage tanks.

Rabai Sub-County is also connected to the Mariakani-Kibaokiche water pipeline. At Kibaokiche, there is a one and a quarter inch pipeline that takes off here and goes to Masaani up to Kadzuyuni. This therefore serves a section of the Ruruma Ward which is being represented by hon. Kanjwele. Rabai Sub-County is also connected to Baricho-Kambe-Ribe water pipeline. There is a...

(Hon. Mramba stood on a Point of Order)

The Deputy Speaker (Hon. Kenga): There is a Point of Order. Hon. Member, kindly take your sit. Yes what is your Point of Order?

Hon. Mramba: Mr. Speaker, the hon. Member on the Floor is saying that Ruruma Ward is represented by hon. Kanjwele. Since I came to this Assembly, I have never heard any Member know by the name *Kanjwele*. Can he please elaborate who that MCA is?

The Deputy Speaker (Hon. Kenga): Yes hon. Shaban, who is this person?

Hon. Shaban: Thank you. Ruruma Ward is being represented by hon. Jana Tsuma Jana. Rabai Sub-County is also connected to Baricho-Kambe-Ribe water pipeline. There is a two inch water pipeline which takes off here and serves the people of Marereni. There is a two inch water pipeline that serves the people of Makini-Mleji. There is another one and a quarter inch water pipeline that serves the people of Makobeni.

Therefore, Rabai Sub-County is served from both the Baricho water works and Mzima springs. The Department has also put tremendous efforts to supplement the pipeline with water pans and dams but also pumping a lot of efforts in drilling boreholes in the Sub-County of which ground water in the area has shown huge potential.

Kamkunji dam was claimed to be a viable sources of water in 2012 to serve Mariakani, Kaloleni and beyond. The dam is situated at Kokotoni in Mariakani, Kaloleni Sub-County. This was like a discovery of the then MP (Member of Parliament) for Kaloleni hon. Samuel Kazungu Kambi. The story was blown out of proportion such that it attracted the attention of the then Minister for Finance who is now our President H.E. Uhuru Kenyatta. As usual, Coast Water Services Board was ordered to carry out tests to confirm the viability of the source.

Immediately, arrangements were done to comply with this order. After the tests, it was established that the source is not recharging at all. It therefore could not make a source of water for supply system beyond the community living around it thus ending the story about it. With regard, hon. Kiringi Mwachitu CECM Water, Environment, Natural Resources, Forest and Solid Waste Management. Thank you.

The Deputy Speaker (Hon. Kenga): The Member for Mwawesa, are you contented with the Response given by the CEC?

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor.*

Hon. (Ms.) Carol: First, I would like to thank the CEC in charge for this Response on the perennial water shortage in Rabai. However, I am not satisfied with the response because to me it seems to be defensive. In this time and age with seven years in devolution, the women in Rabai still walk many kilometers in search of this rare commodity. It is unfortunate in Rabai Sub-County, water shortage has been perennial for the last seven years and this has caused issues.

On the issue of teenage pregnancies, immediately when our girls come home from school, the first thing they are asked to do is to go fetch water. On their way they get hungry, men or boys who chase after them and they end up sleeping with the girls. Their mothers are always forced to stay up late at night, their men missing out on their conjugal rights. It is so unfortunate that the County Government of Kilifi to date is coming up with measures of putting up water pans and dams.

In the Article 43 (1) (d), it clearly provides that every person has a right to clean water and in adequate quantities. The CEC Member is stating clearly that the pan in Mzima water pipeline is connected through Rabai Sub-County, Mariakani-KibaoKiche is connected and also Baricho Kambe-Ribe water pipeline. The bottom line is that there is no clean, safe water in the taps of the people of Rabai. We demand our rights. The people of Rabai are demanding their rights.

The CECM admits that the water in Rabai Sub-county is not sufficient and to add salt to injury, the reason is because of the rapid growing population. I would like to ask the CECM when he learnt that the population of Rabai is rising. Is it after my Statement? He has been in office and this is his second term and the only measure he has come up with is to come up with bore-holes, dams and water pans.

His Response to me is defensive and what we need in Rabai is safe, fresh drinking water. The CECM is talking of upgrading the water pipes to eight inches upwards. Mr. Speaker, the current inches are not sufficient, the water pressure is low at any time of the day, which I believe at least at night should be high because there is no traffic. I am not convinced with the Response from the CECM being his second term in office. By now, his Department should have come up with measures to have the upgraded pipes so that the people of Rabai receive water. With the few remarks, I do not accept his Response.

The Deputy Speaker (Hon. Kenga): Yes, Member for Mwanamwinga.

Hon. Pascal: Thank you for granting me an opportunity to contribute on the matter before this House. It is high time that as a County Government we take water as a very crucial commodity that we need to supply. The CECM has been very casual in his Response to our people on this problem given that the pipelines that the CECM is talking about do not have enough water for the people of Kilifi. For example, in my ward there are so many pipelines we have connected as the County Government but they do not provide water for our people. The CECM is talking about the pipelines that were laid by the County Government but he is failing to acknowledge that these pipelines do not have water in them. The only source that we have always depended on is the Baricho sources but for ages, the hon. Member for Mwawesa has indicated that this CECM is serving his second term by now and he should have known all the challenges that come with provision of water and probably given out some measures on how as a County Government we can plan for eradication of this problem.

You can see that he has been explaining the problems that are there but he has not given options. Probably, he should have indicated the amount and resources that he would need to address this problem that has eaten into the Kilifi society. There are so many other sources that

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor.*

we can explore as a House like the boreholes but we are speaking of a County with almost half of affected by drought. We only have one rig that is meant to drill boreholes in the whole County. Mr. Speaker this rig is not enough. We need him to have given suggestions for example; we increase the rigs so that we could have enough boreholes to serve our people. I think it is high time the CECM got serious on matters of water and assist this County. We entrusted him with that responsibility. We do not want him to give reasons here and there; let him come up clearly. Let him ask us to provide the needed resources so that we can see our people being served well. I rest my case by urging this CECM to get serious with the water provision matter.

The Deputy Speaker (Hon. Kenga): Yes hon. Member Ms. Loice (Ngari).

Hon. (Ms.) Ngari: Asante sana mheshimiwa Spika. Majibu ya Waziri yako hafifu sana na pia yako na madharau ndani yake. Nikisoma vile alivyojibu ameanza na kusema kwamba “shida ya maji inapatikana *Coast* nzima”. Hiyo inatuvunja moyo pia akamalizia na kusema “ending the story about it” kuonyesha kwamba hana la ziada kulingana na hiyo hoja ambayo ameambiwa. Tafadhali tangu asubuhi tumemjadili huyu waziri labda itabidi tumuite aje kutuelezea kinaga ubaga kuhusu ni vipi atawapatia majibu saa hii wakaazi wa Kilifi ili kutatua shida.

The Deputy Speaker (Hon. Kenga): Yes Member for Tezo.

Hon. Mumba: Thank you Mr. Speaker for this opportunity because all our requests are at your mercies but choosing to give me an opportunity, I will not take it for granted. I stand disappointed by going through such kind of a Response from the CECM in charge of a very crucial commodity to this County. First, let me start by acknowledging and welcoming the students from Barani Secondary School and I wish to say that you are most welcome; feel at home. The Member for Malindi is not around but we are his brothers and we represent him as he is away. He is not only your area Member of County Assembly but also alumnus of the same school.

Let me congratulate hon. Ms. Scholastica for the way you have displayed your submission in this House today. I am really impressed. Keep it up and we are looking forward to see more of the same.

The Response to me is as good as a piece of literature whereby a student would like to please his or her teacher to award him good marks. It is a Response that is as nice as a lullaby song that can be used to sing to a child to sleep, but not anywhere near a satisfactory Response. It does not offer solutions to the people of Rabai Sub-County and Kilifi at large. I have been going through the same issues in Tezo. I brought a Statement here way back last year and I complained over the same matter in which the CECM responded to all those Statements. To date, Mr. Speaker, I can confirm to this House that the problem is still in existence. That can clearly show you how casually they take these Statements from this hon. House.

So, again Mr. Speaker, I wish to request through your guidance that every Response that comes to this House must bear commitment from the CEC Member in charge so that at least we can understand that whatever measures they take are clearly guided as the Member for Mwanamwinga has stated. If it is a matter of resources Mr. Speaker, then we need to see that commitment that there are resources to address the same problems.

Mr. Speaker, saying that we have undertaken measures to address the problem that is only a statement which does not offer any solution to that problem. It is so saddening that we are not enjoying the fruits of devolution while water is almost a fully devolved function that we should be enjoying by now. It is very bad and I request through your guidance, such kind of CEC

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor.*

Members must be brought to the General Oversight Committee if they continue in this manner and I think through that way, they will be streamlined and they will be responding to these issues as they are supposed to.

Mr. Speaker, when they say they recommend the eight inch pipes to be upgraded while at the same time they are saying there is insufficient water, I fail to understand. Do we need a big pipe now to make sure the insufficient water flows in the big pipes while it cannot flow in the small pipes? That is very ridiculous. They are even contradicting themselves. We have a lot of water draining in the Indian Ocean and here you are telling us there is insufficient water. So, can we see where the problem is and address the problem? Let us not give excuses in the name of Responses. I rest my case Mr. Speaker. Thank you.

The Deputy Speaker (Hon. Kenga): Jana Tsuma Jana.

Hon. Jana: Asante Bw. Spika kwa kunipatia nafasi hii. Sijui nianze kwa kuimba wimbo, au? Ukiniruhusu nitaimba wimbo mwanzo.

The Deputy Speaker (Hon. Kenga): Make your contributions.

Hon. Jana: Asante Bw. Spika. Kulingana na majibu ya huyu Waziri Bw. Mwachitu ni ya kutudharau hasa sisi watu wa Rabai Sub-County. Tunavyozungumza mpaka sasa kuna barabara nyengine ambazo mimi ninashindwa kuzitembea kwa sababu ukitembea ni kero tu kwa wananchi wakisema ‘maji, maji, maji.’ Inabidi barabara hizo au njia hizo wakati tunatembea tukienda nyumbani inabidi aidha tutembea ikiwa ni usiku au tukifunga vioo. Kwa hivyo, ninasema ya kwamba shida hii kama huyu Waziri hataweza kuitatua ndani ya Rabai tunamuomba basi ajiuzulu.

(Applause)

Ajiuzulu na ajiuzulu haraka sana. Kuna wakati mmoja nilisema ya kwamba bibi yangu alimaliza miezi sita kwao kwa sababu ya shida kama hii. Na kitu ambacho kilifanya aende kwao ni kwamba wakati mwengine hata anatoka saa sita za usiku na harudi, akirudi ni asubuhi. Sasa mimi namuuliza, “wewe umeenda kuchota maji au umeenda kwa nyumba nyengine”

(Applause)

Kwa hivyo Bw. Spika nataka niseme, Mwachitu huenda akaleta shida ndani ya majumba yetu. Kwa hayo machache Bw. Spika, naomba kusema Mwachitu akaze kamba la sivyo tutamkaza sisi. Asante.

(Laughter)

The Deputy Speaker (Hon. Kenga): The Legislator for Kakuyuni.

Hon. Mramba: Thank you Mr. Speaker. Whatever is being said here is very serious and the hon. CEC Member must up his game. The issues having been raised by hon. (Ms.) Carol and hon. Jana Tsuma Jana are very serious issues that break families. One, they break families and they contribute to the low growth of population because if your wife leaves your house at mid-night going for water and those are the times that scientifically have been proven it is the time of making children Mr. Speaker...

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor.*

(Laughter)

I can therefore say that Mwachitu has contributed to the slow growth of population in Rabai and even Magarini. This is very serious and the hon. CEC Member needs to do something about it. He should not complain that Rabai is connected to Mzima springs while hon. (Ms.) Carol the MCA is saying no. He is complaining the pipe is eight inches but at least if it is only eight inches we need to get water however little it is. Now, we have only seen that he bought one rig which is stationed at Rabai... It is no longer there. Okay, we needed at least five of them Mr. Speaker and the CEC Member has never made a request to the Budget Committee for further allocation of monies. I therefore tell hon. Mwachitu to do more otherwise he will go home. Thank you so much.

(Applause)

The Deputy Speaker (Hon. Kenga): Hon. (Ms.) Nyamolo (Victorine).

Hon. (Ms.) Victorine: Thank you Mr. Speaker for giving me this opportunity. I am a victim of shortage of water in this *bonafide* county. Mr. Speaker, there is a special school in Kaloleni that is neighbouring Rabai Sub-County named Kizurini Primary School. Every now and then, children with special abilities are spending more than five days without taking a bath just because of lack of water. On that one, I have been calling Mombasa Cement to supply water in that same school because of lack of water. Of late, the people whom I have been asking for water from Mombasa Cement are not picking my calls because they know that I will ask for water every now and then so it is high time the CEC Member should do something to supply water in our various Sub-Counties. Thank you, Mr. Speaker.

The Deputy Speaker (Hon. Kenga): The hon. Member for Bamba.

Hon. Mwambire: Asante sana mheshimiwa Spika kwa kunipatia nafasi hii ili niweze kuchangia mada hii ambayo kwa kweli kulingana na swali ambalo mheshimiwa Carol Kalume aliuliza ya kwamba laini ya maji ya Rabai imeunganishwa na laini ya kutoka Mzima kunaonekana kwamba mheshimiwa Carol alikuwa amefanya utafiti na kuona kwamba laini hii huwa inasambaza maji kama vile inavyotakikana. Hapa Bw.Waziri akajibu kwamba ni kweli imeunganishwa lakini hata hivyo hii haisaidii kupeana jibu mwafaka la kupatikana kwa maji Rabai Sub-County. Nataka kusema kwamba shida ya maji katika Kilifi Kaunti inakumba karibu asilimia themanini ya Kaunti hii yetu ya Kilifi. Maswala mengine ambayo Bunge hili litilie mkazo ni kwamba sehemu kama hizi ambazo zinakumbwa na hali ya ukosefu wa maji, ile *rig* ya kuchimba visima iweze kufanya kazi.

Nilikuwa natazamia katika majibu lake aseme kwamba ile *rig* ya kuchimba visima labda imechimba visima kadhaa katika Rabai ili kutatua jambo hili na labda kuna mipango mwafaka ambayo inaweza kusaidia kuona kwamba hali ya kupatikana maji inaweza kuthibitika namna gani. Nikiongezea ni kwamba mimi kama mwakilishi wa wadi ya Bamba, hivi saa nane nimeongea na Afisa mmoja wa KWS (Kenya Wildlife Service) anawakilisha sehemu ya Malindi na mwengine anawakilisha upande wa Tsavo East. Haya ni maswala ambayo yanafaa kuingiliwa kati kwa sababu wanyama pori wanatoka kule ikiwa sisi wakaazi wa sehemu za Bamba asilimia sabini tumetegemea maji kutoka mabwawa.

Hayo maji yamekuwa yakitumiwa na wanyama kwa sababu wanakosa maji katika mbuga ya Tsavo. Hiyo imesababisha maswala ya ukosefu wa maji. Pia vile vile kumekuwa na *failure*

Disclaimer: *The electronic version of the Official Hansard Report is for information purposes only. A certified version of this Report can be obtained from the Hansard Editor.*

ya hiyo laini ya maji kwa hivyo tunatazamia Waziri aje na mipango mwafaka ya kuona mipango ya kugawa maji katika Kaunti ya Kilifi inaeleweka. Katika majibu ambayo ameyaleta hapa kama vile Mheshimiwa wa Tezo na Mwanamwinga ambavyo wamesema ni kama alikuwa anajaribu kuruka ama kuonyesha kwamba ana ufahamu wa matatizo lakini hangependa kupeana ile suluhisho haswa inayomridhisha Mheshimiwa Carol. Kwa hivyo, naunga mkono ya kwamba Ripoti hii haikukamili na ikiwezekana aweze kuleta Ripoti mwafaka ili mheshimiwa arudi na majibu kwa watu waliomchagua kuhusu tatizo la maji. Asante sana Bw. Spika.

The Deputy Speaker (Hon. Kenga): Thank you. Hon. Shaban you must have had a bad day today because all the responses that you have given out are against the wishes of great people of Mwawesa. What do you have to say?

Hon. Shaban: Thank you Mr. Speaker, Sir. I have heard the responses. Those homes and marriages are broken because of the issues of water. I want to appreciate that Rabai Sub-County has four wards and we in Kambe-Ribe get water two days per week; on Mondays and Fridays. We should also appreciate and the Committee on Water sometime back visited Baricho and we learnt...

(Hon. Pascal stood on a Point of Order)

The Deputy Speaker (Hon. Kenga): There is a Point of Order from hon. Pascal. Kindly take your seat.

Hon. Pascal: Mr. Speaker, let the Member be very categorical. Is he standing here as one of us or standing wearing the shoes of the CEC Member? Because the Member for Mwawesa gave out complaints of her people out there and we can see the Member who has just sat is like protecting and shielding the CEC Member. Can he clarify that? Thank you.

Hon. Shaban: Mr. Speaker, Sir, the Member for Mwanamwinga should also know that I am here to represent the Chairperson and the Committee on Water. I seek your direction on this. Thank you.

The Deputy Speaker (Hon. Kenga): Thank you very much hon. Members for your contributions towards the Response that was given out. You will all agree that clean water, safe and adequate water is a right that is enshrined in the Constitution. We have heard it from the Member of Mwawesa Ward and also supported by some of the Members who have made their contributions that these rights have been violated, given that most people have gone without water within the Ward. I now direct that the Committee will take up this matter within a period of 14 days and will be able to submit a Report on the same. They should engage the CEC Member. The Member for Mwawesa should be informed of the meetings so that she is also invited to attend and make her contributions regarding the same. Thank you very much.

ADJOURNMENT

There being no any other business to transact, this sitting stands adjourned until tomorrow Wednesday at 2:30 p.m. Thank you very much.

The House rose at 3:44 p.m.
