### STATEMENTS

#### LACK OF ACCESS ROADS TO BENGONI AND MUDZI MURE ECDE CENTRES

**Hon. Pascal:** Thank you Mr. Speaker for giving me an opportunity to direct a Statement to the County Executive Committee Member (CECM) in charge of Roads, Transport and Public Works through the Chairperson of the Committee on Transport and Public Works. The Statement is about the access roads to Bengoni and Mudzi Mure ECDE (Early Childhood Development and Education) Centre:-

Whether the CECM in charge of Roads, Transport and Public Works is aware that Bengoni and Mudzi Mure ECDE Centres that were built by the County Government of Kilifi three years ago have no access roads which have forced both teachers and pupils to transport or carry learning materials and other materials to the school on their heads for a long distance.

If yes, what measures is the CECM taking to ensure that, the two ECD Centres have good and reliable access roads before the end of August, 2020. Thank you, Mr. Speaker.

## LACK OF ELECTRICITY CONNECTION AT VIRAGONI DISPENSARY IN MWANAMWINGA WARD

**Hon. Pascal:** I have another Statement that is directed to the CECM in charge of Health Services through the Chairperson for Health Services. The Statement is about Viragoni Dispensary in Mwanamwinga Ward:-

Whether the CECM in charge of Health Services is aware that Article 43 (1) of the Constitution of Kenya, 2010 provides that every person has the right to the highest attainable standard of health.

Whether the CECM is aware that Viragoni Dispensary, a County Government facility which services the entire Viragoni Sub-Location and some parts of Ganze Sub-County, is not connected to electricity power despite the facility being equipped with delivery kits that were sponsored by CDF (Constituency Development Fund) some time back and which require electric power for their operation.

Whether the CECM is aware that prior efforts by the community to have the facility connected to electricity power have not borne any fruits.

If yes, what measures is the CECM taking to ensure that the facility is connected to electricity so that the delivery kits and other medical machinery can be put into operation for efficient and effective service delivery? Thank you Mr. Speaker, Sir.
